Professional Summary

Software engineer with 12+ years of experience, including fintech platform engineering, DevOps technical leadership, engineering management, and Staff Engineer responsibilities at Kueski. AWS Certified Solutions Architect with a demonstrated zero-downtime database migration using AWS DMS. Author of an open-source Python client for Mexico's SAT services and creator of a commercial GPS application for iOS and Android. Combines infrastructure experience with developer tooling, applied AI, and ownership of products used by real customers.

Technical Skills

- **Cloud and platform:** AWS, Kubernetes, Amazon EKS, Amazon RDS, AWS DMS, PostgreSQL.
- **Software and integrations:** Python, JavaScript/TypeScript, Go, Apache Kafka, SOAP/XML, e.firma-based authentication.
- **Delivery and quality:** GitHub Actions, automated testing with pytest, semantic versioning, PyPI publishing, CodeQL, dependency review.
- **AI and developer tools:** Amazon Bedrock, OpenAI Codex, Claude Code, spec-driven software development.
- **Product development:** Flutter, Dart, Firebase, Next.js.

Professional Experience

Aloi - Founding Software Engineer

November 2025 - Present · Remote, Mexico

Kueski - Platform Engineering, DevOps & Technical Leadership

June 2021 - November 2025 · Mexico

Progressed through five roles spanning platform engineering, DevOps, technical leadership, engineering management, and Staff Engineering:

- **Staff Engineer:** October 2024 - November 2025.
- **Software Engineer Manager (DevOps):** January 2024 - October 2024.
- **DevOps Tech Lead:** January 2022 - January 2024.
- **DevOps Engineer:** August 2021 - January 2022.
- **Platform Engineer:** June 2021 - August 2021.

KIO Networks - Product Developer

January 2019 - May 2021 · Mexico City Metropolitan Area

SAT - Inter-institutional Coordination Manager

July 2018 - December 2018 · Mexico City Metropolitan Area · Contract

centralSoft.com.mx - Co-founder & Product Developer

January 2016 - May 2018 · Guadalajara Metropolitan Area

SAIT Software - Software Developer

May 2014 - January 2016 · San Luis Río Colorado, Sonora

Selected Projects

Desierto de Altar GPS - Creator · Side Project

Website · App Store · Google Play

- Created and commercialized a GPS application for desert exploration on **iOS and Android**, with **3,000 monthly active users (MAU)** and **real sales through the App Store and Google Play**.
- Offers offline maps, GPS route recording, points of interest, GPX/KML import, GPX export, and temporary groups for location sharing.
- Provides a free tier and a paid lifetime Pro upgrade with additional map regions and unlimited saved routes and personal points of interest.

python-cfdiclient - Open-Source Author

github.com/luisiturrios1/python-cfdiclient

- Authored a Python library that integrates with Mexico's **SAT web services** for bulk CFDI and metadata retrieval, request status verification, package downloads, and invoice status checks.
- Supports **e.firma/FIEL authentication** and SOAP/XML integrations; published as the cfdiclient package on PyPI under the GPL-3.0 license.
- The project includes **GitHub Actions** for testing across Python versions and operating systems, automated prereleases and releases, CodeQL analysis, and dependency review.

Certifications

- **AWS Certified Solutions Architect - Associate** - Amazon Web Services. June 2024 - June 2027. Credential.
- **SCRUM Master Accredited Certification** - International Scrum Institute.
- **SDP07 Human/Computer Interaction & Communication** - Carnegie Mellon University.

Education

Engineering in Information and Communication Technologies

Universidad Tecnológica Metropolitana de San Luis Potosí · 2012-2016
